History: 1937, Act 284, Imd. Eff. July 23, 1937;—Am. 1945, Act 237, Eff. Sept. 6, 1945;—CL 1948, 287.121;—Am. 1957, Act 290, Eff. Sept. 27, 1957.

287.122 Licensing of dealers or brokers.

Sec. 2. No dealer or broker shall engage in or carry on the business of buying, receiving, selling, exchanging, transporting, negotiating or soliciting the sale, resale, exchange, transportation or transfer of any animals within the state unless duly licensed and bonded as hereinafter provided. Such dealer or broker shall be responsible for acts performed or contracts made by any person or individual employed by said dealer or broker in buying, receiving, selling, exchanging, transporting, negotiating or soliciting sale, resale, exchange, transportation or transfer of livestock.

History: 1937, Act 284, Imd. Eff. July 23, 1937;—Am. 1945, Act 237, Eff. Sept. 6, 1945;—CL 1948, 287.122.

287.123 Licensing of livestock dealer, broker, or agent; application; contents; fees; deposit of fines; weighmasters; receipt of completed application; issuance of license within certain time period; report; bond; license to transport required; producers' proceeds account; "completed application" defined.

Sec. 3. (1) A person desiring to act as a dealer, broker, or agent shall file an application with the department for a license to engage in the business of dealer, broker, or agent. The application shall state the nature of the business, the mailing address of the applicant, and the mailing address at or from which the

business is to be conducted. If the applicant desires to operate a livestock yard where livestock is kept and sold at public or private sale, the application shall so state. The application may state additional information as requested by the director.

(2) Subject to subsection (7) and until September 30, 2012, the department shall charge and collect the following fees for initial and renewal license applications:

(a) Class I (livestock auction).....	\$ 400.00.
(b) Class II (collection point/buying station).....	\$ 250.00.
(c) Class III (horse auction).....	\$ 150.00.
(d) Class IV (dealer/broker/agent).....	\$ 50.00.

(3) Subject to subsection (7) and after September 30, 2012, the only fee the department shall charge and collect for the issuance and renewal of licenses under this section is a fee of \$5.00 for a dealer, broker, or agent license.

(4) The department shall deposit administrative and noncriminal fines received under this act and license or other administrative fees received under this section into the agriculture licensing and inspection fees fund created in section 9 of the insect pest and plant disease act, 1931 PA 189, MCL 286.209, to be used, pursuant to appropriation, by the director in administering and carrying out those duties required by law under this act.

(5) A licensee who buys or sells livestock by weight shall employ a registered weighmaster to do all the weighing. The duties, qualifications, and requirements for registration of weighmasters shall be established by the director by promulgation of a rule under section 9.

(6) Beginning July 23, 2004, the department shall issue an initial or renewal dealer, broker, agent, livestock auction, collecting point/buying station, and horse auction license not later than 90 days after the applicant files a completed application. Receipt of the application is considered the date the application is received by any agency or department of the state of Michigan. If the application is considered incomplete by the department, the department shall notify the applicant in writing, or make the information electronically available, within 30 days after receipt of the incomplete application, describing the deficiency and requesting the additional information. The 90-day period is tolled upon notification by the department of a deficiency until the date the requested information is received by the department. The determination of the completeness of an application does not operate as an approval of the application for the license and does not confer eligibility of an applicant determined otherwise ineligible for issuance of a license.

(7) If the department fails to issue or deny a license within the time required by this section, the department shall return the license fee and shall reduce the license fee for the applicant's next renewal application, if any, by 15%. The failure to issue a license within the time required under this subsection does not allow the department to otherwise delay the processing of the application, and that application, upon completion, shall be placed in sequence with other completed applications received at that same time. The department shall not discriminate against an applicant in the processing of the application based upon the fact that the license fee was refunded or discounted under this subsection.

(8) Beginning October 1, 2005, the director shall submit a report by December 1 of each year to the standing committees and appropriations subcommittees of the senate and house of representatives concerned with agriculture issues. The director shall include all of the following information in the report concerning the preceding fiscal year:

(a) The number of initial and renewal applications the department received and completed within the 90-day time period described in subsection (6).

(b) The number of applications denied.

(c) The number of applicants not issued a license within the 90-day time period and the amount of money returned to licensees and registrants under subsection (7).

(9) The application for that license and bond shall be submitted to the director on or before October 1 of each year. Each license issued under this section shall be for a period of 1 year commencing October 1 and ending the following September 30.

(10) Each dealer, broker, or agent operating or conducting a livestock auction shall file with his or her application for a license a surety bond effective during the period for which the license is issued. The surety bond shall be issued by a surety company registered in this state to indemnify persons from whom livestock is purchased or for whom livestock is sold or other security and in such amounts, form, and sufficiency as approved by the director. The amount of the bond shall be an amount equal to the amount of gross dollar volume of livestock business conducted during the average week of the previous licensing year by the applicant, but in no case less than \$1,500.00. If the average gross weekly livestock business conducted by the applicant during the previous licensing year was greater than \$25,000.00, the bond shall be increased above \$25,000.00, at the rate of \$1,000.00 for each \$5,000.00 or part thereof above \$25,000.00 on the average gross

dollar-volume of weekly livestock business conducted during the previous year. A licensee who owns or operates more than 1 livestock yard or livestock auction may file 1 bond in an amount determined by the formula described in this subsection. Any dealer, broker, or agent operating or conducting a livestock yard or livestock auction who has filed a surety bond for the livestock yard or livestock auction and indemnifies persons from whom livestock is purchased or for whom livestock is sold in accordance with the terms of any federal act is exempt from the bonding requirements of this subsection provided the bond is equivalent in amount to that which would be required by this act. The bond shall be for a dealer or broker and his or her agents in which the department is the obligee for the benefit and purpose of protecting all persons selling or consigning livestock to the licensed dealer, broker, or agent against the licensed dealer's, broker's, or agent's failure to pay amounts due on livestock purchased by or consigned to them.

(11) Each licensee shall keep records and shall furnish, upon request, information concerning his or her purchases and sales as may be required by the director for the purpose of establishing the amount of bond required under subsection (10). The director, in fixing the amount of the bond, shall take into consideration the dollar volume of livestock business and other information furnished by the dealer, broker, or his or her agent. If a dealer, broker, or agent did not operate a livestock auction the previous licensing year, the bond shall be for an amount as shall be established by the director after consideration of all information available on the probable weekly gross dollar volume of business to be conducted by the dealer, broker, or agent during the licensing year.

(12) If during any licensing year the bond filed by any licensee becomes less than required by this act because of an increase in gross dollar volume of livestock sales, the director may issue an order requiring the licensee to file an additional bond to cover the increase in gross dollar volume of livestock sales. Failure to comply with the orders of the director is grounds for suspension or revocation of license. A bond shall be conditioned upon the faithful performance of the licensee's duties as a dealer or broker and on the provisions of law relating to the purchase of livestock by the dealer or broker and for the payment by the dealer or broker of all livestock purchased by or consigned to the dealer or broker as a dealer or broker in livestock.

(13) A license issued under this section allows the holder to conduct the business of dealer or broker at or from the place named in the application. A legal entity engaged in the business of transporting livestock or negotiating or soliciting the transportation or transfer of livestock that is not engaged in the buying, selling, reselling, exchanging, negotiating, or soliciting the sale, resale, or exchange of livestock must obtain a license under this section but is not required to comply with bonding provisions of this section.

(14) A dealer, broker, or agent shall keep adequate records of the producers' proceeds account in compliance with section 3a and of all sales and purchases for a period of 5 years in the manner required by the director. The records shall be open to reasonable inspection by the department.

(15) A dealer, broker, or agent shall notify the director of a change of address within 5 days after that change. Any change in ownership of any livestock auction or market shall be reported to the director within 5 days by the licensee. Each dealer or broker shall file with the director on January 1 of each year a sworn statement of average weekly sales and a statement showing the number and kinds of livestock purchased and sold during the previous year.

(16) As used in this section, "completed application" means an application complete on its face and submitted with any applicable licensing fees as well as any other information, records, approval, security, or similar item required by law or rule from a local unit of government, a federal agency, or a private entity but not from another department or agency of the state of Michigan.

History: 1937, Act 284, Imd. Eff. July 23, 1937;—Am. 1945, Act 237, Eff. Sept. 6, 1945;—CL 1948, 287.123;—Am. 1949, Act 239, Eff. Sept. 23, 1949;—Am. 1957, Act 290, Eff. Sept. 27, 1957;—Am. 2003, Act 85, Imd. Eff. July 23, 2003;—Am. 2004, Act 279, Imd. Eff. July 23, 2004;—Am. 2007, Act 81, Imd. Eff. Sept. 30, 2007.

287.123a Livestock auction; bond, producers' proceeds account, deposits; record of charges.

Sec. 3a. Each dealer, broker or agent operating a livestock auction, in addition to providing a bond as required by this act, shall maintain a "producers' proceeds account". Within 7 calendar days following each livestock auction the dealer shall deposit in the producers' proceeds account funds which shall be equal to the total amount of money due the livestock sellers or consignors of livestock sold or consigned through the livestock auction. Failure to make such deposits in their entirety shall constitute a violation of this section. The director shall audit from time to time the producers' proceeds account and ascertain whether the provisions of this section are being complied with. All records of the licensed dealer shall be made available to the director for the purposes of auditing the account. The entire sale price of livestock sold through the auction less commissions, handling charges, service fees and other accepted charges shall be placed in the producers' proceeds account and shall be used to pay the seller or consignor for the livestock and for no other

purpose. A record of the commissions, handling charges, service fees and other charges shall be maintained by the licensee and shall be provided to the seller or consignor of the livestock at the completion of the sale.

History: Add. 1957, Act 290, Eff. Sept. 27, 1957.

287.124 Dealers or brokers license; revocation, hearing, notice, review; causes for revocation.

Sec. 4. For failure or refusal to obey the provisions of this act, the department may refuse a license or suspend or revoke the license held by such licensee. Whenever the director is satisfied of the existence of any one or more of the reasons for refusing, suspending or revoking the license provided for in this act, before refusing, suspending or revoking the license, the department shall give written notice of a hearing to be had thereon to the licensee affected. The notice shall appoint a time of hearing at the department and shall be mailed by certified or registered mail to the licensee. On the day of the hearing, the licensee may present such evidence to the director as he deems fit regarding the violations charged, and the director shall thereupon render a decision. Any licensee who feels aggrieved at the decision of the director may appeal from said decision within 10 days by writ of certiorari to the circuit court of the county where the licensee resides. The following reasons shall be construed as just cause for refusal, suspension or revocation of a license:

(a) Where the applicant or licensee has failed to pay in full for any amounts due on livestock purchased, or has violated the laws of the state or official regulations promulgated by the director or other competent authority governing the interstate or intrastate movement, shipment or transportation of animals.

(b) Where there have been false or misleading statements to the purchaser as to the health or physical condition of the animal or animals with regard to official tests, ownership, or quantity of animals or misrepresentation in connection therewith, or in the buying or receiving of animals, or receiving, selling, exchanging, soliciting, or negotiating sale, resale, exchange, transport, transfer, weighing, or shipment of animals.

(c) Where the licensee engages in buying or receiving animals, or receiving, selling, exchanging, soliciting, or negotiating the sale, resale, exchange, transport or transfer of animals affected with a communicable disease or diseases that are likely to be transmitted to other animals or human beings: Provided, That subdivision (c) of this section shall not apply to animals which have reacted to any test used for the detection of tuberculosis, and Bang's disease, when said animals are disposed of in conformity with state laws and regulations governing disposal of such animals and when such animals are killed under supervision of a United States department of agriculture research service inspector or a regularly authorized inspector of the state livestock disease control division.

(d) Where the licensee fails to practice measures of sanitation, disinfection, and inspection as required by this act, of premises or vehicles used for the stabling, yarding or transportation of animals.

(e) Where there has been a failure or refusal on the part of the licensee, upon the request of the department, to produce records of transactions in the carrying on of the business for which such license is granted.

287.125 Dealers or brokers license; place of keeping license.

Sec. 5. Every dealer, broker, or agent licensed under the provisions of this act and carrying on or conducting business under such license shall at all times keep in or at the place of business or in each vehicle used by such licensee for the purpose of transporting livestock a copy of such license for inspection by any representative of the department, sheriff, undersheriff, deputy sheriff, Michigan state police or any other law enforcing agency.

The department shall prescribe the proper tests or treatment of any such animal sold when such tests or treatment are deemed necessary to

prevent the spread of a communicable disease of livestock. Such test or treatment shall be made by a veterinarian approved by the department, and the fees for such tests or treatment shall be paid by the dealer, broker or agent.

(a) No dealer, broker, agent or owner of any animal shall sell or offer for sale any such animal under an assumed or fictitious name or make any false or misleading statements as to the identity or the physical condition of said animal with regard to any test which is supposed to establish the health status of any animal offered for sale or sold.

287.266 Dog licenses; application; resolution; provisions; proof of vaccination.

Sec. 6. (1) The owner of a dog that is 4 or more months old shall apply to the treasurer of the county or, except as provided in section 14, the treasurer of the township or city where the owner resides, or to the treasurer's authorized agent, for a license for each dog owned or kept by him or her.

(2) Unless the county board of commissioners adopts a resolution under subsection (3), the owner shall apply for a license annually on or before March 1.

(3) The county board of commissioners of a county may adopt a resolution during the 60-day period before the beginning of the county's fiscal year providing when the owner of a dog that is required to be licensed under subsection (1) must apply for a license. Before adopting the resolution, the county board of commissioners shall obtain the county treasurer's written approval of the resolution. Subject to subsection (4), the resolution shall provide for 1 of the following:

(a) That the owner apply for a license by March 1 every year or every third year, at the owner's option.

(b) That the owner apply for a license by June 1 every year.

(c) That the owner apply for a license by June 1 every year or every third year, at the owner's option.

(d) That the owner apply for a license by the last day of the month of the dog's current rabies vaccination, every year.

(e) That the owner apply for a license by the last day of the month of the dog's current rabies vaccination, every third year.

(f) That the owner apply for a license by 1 of the following, at the owner's option:

(i) The last day of the month of the dog's current rabies vaccination every year.

(ii) The last day of the month of the dog's current rabies vaccination, every third year.

(4) A resolution adopted under subsection (3) shall include necessary provisions for conversion to a new licensing schedule. The resolution may extend the effective period of outstanding licenses but shall not shorten the effective period of outstanding licenses or prorate license fees.

(5) The application shall state the breed, sex, age, color, and markings of the dog, and the name and address of the last previous owner. Except as otherwise provided in this subsection, the application for a license shall be accompanied by a valid certificate of a current vaccination for rabies, with a vaccine licensed by the United States department of agriculture, signed by an accredited veterinarian. The certificate for vaccination for rabies shall state the month and year of expiration for the rabies vaccination, in the veterinarian's opinion. If the application for a license is submitted electronically, the owner of the dog is not required to provide a valid certificate of a current vaccination for rabies if the dog was licensed the previous year and the dog's current rabies vaccination on record with the treasurer of the county or, except as provided in section 14, the treasurer of the township or city where the owner resides, or the treasurer's authorized agent, is still valid. A license shall not be issued under subsection (3)(d), (e), or (f) if the dog's current rabies vaccination will expire more than 1 month before the date on which that license would expire. When applying for a license, the owner shall pay the license fee provided for in the county budget. The county board of commissioners may set license fees in the county budget at a level sufficient to pay all the county's expenses

of administering this act as it pertains to dogs. For a spayed or neutered dog, the license fee, if any, shall be set lower than the license fee for a dog that is not spayed or neutered. In addition, the license fee may be set higher for a delinquent application than for a timely application.

(6) If a dog is licensed before it becomes 5 months old and is subsequently spayed or neutered before it becomes 7 months old, the owner of the dog may exchange the license for a license for a spayed or neutered dog and receive a refund for the difference in the cost of the licenses. The owner shall exchange the license before the dog becomes 7 months old.

(7) Subsection (6) applies in a county only if the county board of commissioners adopts a resolution to that effect during the 60-day period before the beginning of the county's fiscal year. Before adopting the resolution, the county board of commissioners shall obtain the county treasurer's written approval of the resolution.

(8) The owner of a dog that is required to be licensed under this section shall keep the dog currently vaccinated against rabies by an accredited veterinarian with a vaccine licensed by the United States department of agriculture.

application; report; “completed application” defined.

Sec. 4. (1) Applications for pet shop licenses shall be on a form as provided or made available by the director. Beginning October 1, 2003 through September 30, 2012, the director shall issue pet shop licenses for a term of 1 year beginning January 1 of each year. After September 30, 2012, the director shall issue a pet shop license upon application and payment of a license fee of \$150.00.

(2) Subject to subsection (6) and until September 30, 2012, the department shall charge a fee of \$200.00 for an initial application for a pet shop license and a fee of \$100.00 for renewal of a pet shop license.

(3) Until September 30, 2012 and except as otherwise provided for in this section, a pet shop license is renewable by submission of a completed renewal application provided or made available by the department and payment of the renewal fee described in subsection (2).

(4) The department shall deposit all license fees, inspection fees, other noncriminal fines or fees, and administrative fines received pursuant to this act into the agriculture licensing and inspection fees fund created in section 9 of the insect pest and plant disease act, 1931 PA 189, MCL 286.209, to be used, pursuant to appropriation, by the director in administering and carrying out those duties required by law under this act.

(5) Beginning July 23, 2004, the department shall issue an initial or renewal pet shop license not later than 90 days after the applicant files a completed application. Receipt of the application is considered the date the application is received by any agency or department of the state of Michigan. If the application is considered incomplete by the department, the department shall notify the applicant in writing, or make the information electronically available, within 30 days after receipt of the incomplete application, describing the deficiency and requesting the additional information. The 90-day period is tolled upon notification by the department of a deficiency until the date the requested information is received by the department. The determination of the completeness of an application does not operate as an approval of the application for the license and does not confer eligibility of an applicant determined otherwise ineligible for issuance of a license.

(6) If the department fails to issue or deny a license within the time required by this section, the department shall return the license fee and shall reduce the license fee for the applicant's next renewal application, if any, by 15%. The failure to issue a license within the time required under this subsection does not allow the department to otherwise delay the processing of the application, and that application, upon completion, shall be placed in sequence with other completed applications received at that same time. The department shall not discriminate against an applicant in the processing of the application based upon the fact that the license fee was refunded or discounted under this subsection.

(7) Beginning October 1, 2005, the director of the department shall submit a report by December 1 of each year to the standing committees and appropriations subcommittees of the senate and house of representatives concerned with agriculture issues. The director shall include all of the following information in the report concerning the preceding fiscal year:

(8) As used in this section, "completed application" means an application complete on its face and submitted with any applicable licensing fees as well as any other information, records, approval, security, or similar item required by law or rule from a local unit of government, a federal agency, or a private entity but not from another department or agency of the state of Michigan. 287.338a Animal control shelter or animal protection shelter; alteration of dog, cat, or ferret.

Sec. 8a. (1) Except as otherwise provided in this section, an animal control shelter or animal protection shelter shall not permit a person to adopt a dog, cat, or ferret that has not been altered, unless that person has entered into a contract for the alteration of the dog, cat, or ferret with the animal control shelter or animal protection shelter. The contract shall state that the adopting person agrees to have an alteration performed on the dog, cat, or ferret and shall otherwise comply with this section.

(2) A contract with an animal control shelter or animal protection shelter entered into pursuant to subsection (1) shall require the adopting person to have an alteration performed on the dog, cat, or ferret within 4 weeks after the adoption date if at the time of adoption the dog, cat, or ferret is 6 months of age or older. If the dog, cat, or ferret to be adopted is under 6 months of age at the time of adoption, the contract shall contain the date upon which the dog, cat, or ferret will be 6 months of age, and shall require the person adopting the dog, cat, or ferret to have an alteration performed on the dog, cat, or ferret within 4 weeks after that date. This section does not prevent a veterinarian from performing an alteration on a dog, cat, or ferret that is under 6 months of age.

(3) Upon certification by a veterinarian in writing that a dog, cat, or ferret has a serious, permanent medical or health problem that prevents an alteration, the dog, cat, or ferret adopted is not required to be altered. Upon certification by a veterinarian in writing that an alteration poses a serious, temporary medical or health problem, the alteration may be postponed. The person adopting the dog, cat, or ferret shall have it reevaluated by a veterinarian at intervals not to exceed 14 days and shall have the alteration performed no later than 7 days after a veterinarian determines that the temporary problem is resolved.

(4) Except as otherwise provided in subsection (7), a contract entered into pursuant to subsection (1) shall require the adopting person to leave with the animal control shelter or animal protection shelter, or a designee of the animal control shelter or animal protection shelter, a good faith deposit of at least \$25.00 that indicates the person's intention to have the adopted dog, cat, or ferret altered within the time provided pursuant to subsection (2). If the person fails to comply with the terms of the contract, the deposit is forfeited. The good faith deposit shall be returned to the adopting person if the adopting person submits written certification from a veterinarian of either of the following:

(a) The dog, cat, or ferret died within the time period in which the alteration was required under subsection (2).

(b) The dog, cat, or ferret has a serious, permanent medical or health problem that prevents an alteration.

(5) Money forfeited under subsection (4) shall be used by the animal control shelter or animal protection shelter to finance alterations, for public education regarding the value of having dogs, cats, and ferrets altered, or to otherwise ensure compliance with this section.

(6) If the adopting person complies with the terms of a contract entered into under subsection (1), the good faith deposit of at least \$25.00 shall be refunded by the animal control shelter, animal protection shelter, or a designee of the animal control shelter or animal protection shelter, upon submission by the adopting person of written certification by a veterinarian that the adopted dog, cat, or ferret was altered. The certificate shall include the date of alteration, the name of the owner of the dog, cat, or ferret, the description of the dog, cat, or ferret, and the signature of the veterinarian who performed the alteration.

(7) The good faith deposit under subsection (4) is not required if 1 or more of the following apply:

(a) A dog is transferred to a local, state, or federal law enforcement agency.

(b) A dog is transferred to an organization or trainer that trains guide or leader dogs for blind persons, hearing dogs for deaf or audibly impaired persons, or service dogs for physically limited persons.

(c) A dog, cat, or ferret is transferred to another animal control shelter or animal protection shelter or is transferred to a person who will transfer the animal to another animal control shelter or animal protection shelter. Before the first animal control shelter or animal protection shelter releases the animal, it shall obtain from the person to whom the animal is to be released a written statement by the second animal control shelter or animal protection shelter that it is willing to accept the animal for purposes of adoption or humane euthanasia. Promptly after receipt of the animal by the second animal control shelter or animal protection shelter, the person to whom the animal was released shall provide the first animal control shelter or animal protection shelter with a written statement by the second animal control shelter or animal protection shelter containing a description of the dog, cat, or ferret and acknowledging its receipt on a date specified in the statement.

(8) A contract entered into pursuant to subsection (1) shall include a statement that if the terms of the contract are breached because a person adopting a dog, cat, or ferret fails to have the animal altered as required in the contract, then the person agrees to pay liquidated damages of the greater of \$100.00 or actual reasonable costs incurred by the animal control shelter or animal protection shelter to enforce the contract. Immediately before a person signs the contract, a representative of the animal control shelter or animal protection shelter shall verbally direct the person's attention to the liquidated damages agreement in the contract.

(a) "High-risk area" means an area designated by the director where bovine tuberculosis has been diagnosed in livestock.

(b) "Intrastate movement" means movement from 1 premises to another within this state. Intrastate movement does not include the movement of livestock from 1 premises within the state directly to another premises within the state when both premises are a part of the same livestock operation under common ownership and both premises are directly interrelated as part of the same livestock operation. Except that when intrastate movement causes livestock to cross from 1 zone into another zone, livestock must meet the testing requirements for their zone of origin.

(c) "Potential high-risk area" means an area determined by the director in which bovine tuberculosis has been diagnosed in wild animals only.

(d) "Whole herd" means any isolated group of cattle, privately owned cervids, or goats maintained on common ground for any purpose, or 2 or more groups of cattle, privately owned cervids, or goats under common ownership or supervision geographically separated but that have an interchange or movement of cattle, privately owned cervids, or goats without regard to health status as determined by the director.

(e) "Whole herd test" means a test of any isolated group of cattle or privately owned cervids 12 months of age and older or goats 6 months of age and older maintained on common ground for any purpose; 2 or more groups of cattle, goats, or privately owned cervids under common ownership or supervision geographically separated but that have an interchange or movement of cattle, goats, or privately owned cervids without

regard to health status as determined by the director; or any other test of an isolated group of livestock considered a whole herd test by the director.

(12) This section does not exempt dairy herds from being tested in the manner provided for by grade "A" pasteurized milk ordinance, 2001 revision of the United States public health service/food and drug administration, with administrative procedures and appendices, set forth in the public health service/food and drug administration publication no. 229, and the provisions of the 1995 grade "A" condensed and dry milk products and condensed and dry whey-supplement I to the grade "A" pasteurized milk ordinance, 2001 revisions, and all amendments to those publications thereafter adopted pursuant to the rules that the director may promulgate.

(13) The director may establish high-risk areas and potential high-risk areas based upon scientifically based epidemiology. The director shall notify the commission of agriculture and publish public notice in a newspaper of each county with general circulation in any area designated as a high-risk or potential high-risk area.

(14) All cattle and goat herds located in high-risk areas shall be whole herd bovine tuberculosis tested at least once per year. After the first whole herd bovine tuberculosis test, testing shall occur between 10 and 14 months from the anniversary date of the first test. This section does not prevent whole herd testing by the owner or by department mandate at shorter intervals. When 36 months of testing fails to disclose a newly affected herd within the high-risk area or any portion of the high-risk area, the director shall remove the high-risk area designation from all or part of that area.

(15) Terminal operations located in high-risk areas in this state are exempt from the requirements of subsection (14) and shall be monitored by a written surveillance plan approved by the director.

(16) All cattle and goat herds located in potential high-risk areas shall be whole herd bovine tuberculosis tested within 6 months after the director has established a potential high-risk area or have a written herd plan with a targeted whole herd bovine tuberculosis testing date. When all herds meet the testing requirements imposed in this subsection, the director shall remove the potential high-risk area designation.

(17) Terminal operations located in potential high-risk areas in this state are exempt from the requirements of subsection (16) and may be monitored by a written surveillance plan approved by the director.

(18) Each owner of any privately owned cervid herd within a high-risk area shall cause an annual whole herd bovine tuberculosis test to be conducted on all privately owned cervids 12 months of age and older within the herd and all cattle and goats 6 months of age and older in contact with the cervids. Following the initial annual whole herd test, subsequent whole herd tests shall be completed at 9- to 15-month intervals. This section does not prevent whole herd testing by the owner or by department mandate at shorter intervals.

(19) Each owner of any privately owned cervid ranch within a high-risk area may elect to undergo a tuberculosis slaughter surveillance plan approved by the director in lieu of the annual whole herd testing. This slaughter surveillance plan must include examination of animals removed from the herd for detection of tuberculosis. Examination must be performed by a state or federal veterinarian or accredited veterinarian. The number to be examined at each testing interval shall include adult animals and must be equal to the amount necessary to establish an official tuberculosis monitored herd as defined in the bovine tuberculosis eradication uniform methods and rules, effective January 22, 1999, and all amendments to those publications thereafter adopted pursuant to rules that the director may promulgate.

(20) All cattle and goat herds, except livestock assembled at feedlots where all animals are fed for slaughter before 24 months of age, that are located in any area outside a high-risk area or a potential high-risk area in this state shall be whole herd bovine tuberculosis tested between January 1, 2000 and December 31, 2003. Privately owned cervid herds located in the non-high-risk areas or potential high-risk areas shall be tested per sections 30c and 30d. The director may order testing for any reportable disease in any geographical area or in any herd to accomplish surveillance necessary for the state of Michigan to participate in the national tuberculosis eradication program, to complete epidemiologic investigations for any reportable disease, or in any instance where a reportable disease is suspected. The director may establish a surveillance testing program for cattle and goats to replace the testing protocol and meet the intrastate movement requirements under subsections (22) and (23). A person shall not sell or offer for sale, move, or transfer any livestock that originate from a herd or area under order for testing by the director unless the livestock have met the requirements of the order issued under this subsection. If a person does not cause a herd to be tested in compliance with this order, the director shall notify the person responsible for management of the herd of the necessity for testing to occur and the deadline for testing to occur and shall quarantine any herd that has not been tested until such time as the testing can be completed by state or federal regulatory veterinarians or accredited veterinarians.

(21) Terminal operations and privately owned cervid premises located in any area outside a high-risk area or a potential high-risk area in this state may be exempted from subsection (18) and may be monitored by a

written surveillance plan approved by the director.

(22) Subject to subsection (24), cattle and goats originating in an area not designated as a high-risk area moving intrastate shall meet at least 1 of the following until the zone, area, or the entirety of the state from which they originate receives tuberculosis-free status from the United States department of agriculture or under other circumstances as approved by the director:

(a) Originate directly from a herd that has received an official negative whole herd bovine tuberculosis test within the 24 months before the intrastate movement.

(b) Has received an individual official negative bovine tuberculosis test within 60 days before the intrastate movements.

(c) Has originated directly from an accredited bovine tuberculosis-free herd as defined in title 9 of the code of federal regulations and the bovine tuberculosis eradication: uniform methods and rules, effective January 22, 1999, approved by veterinary services of the United States department of agriculture, and all amendments to those publications thereafter adopted pursuant to rules that the director may promulgate.

(23) Subject to subsection (24), cattle and goats originating in a high-risk area that move intrastate shall meet at least 1 of the following until the zone, area, or the entirety of the state from which they originate is no longer designated as a high-risk area by the director or under other circumstances as approved by the director:

(a) Originate directly from a herd that has received an official negative whole herd bovine tuberculosis test within the 12 months before the intrastate movement.

(b) Has received an individual official negative bovine tuberculosis test within 60 days before the intrastate movements.

(c) Has originated directly from an accredited bovine tuberculosis-free herd as defined in title 9 of the code of federal regulations and the bovine tuberculosis eradication: uniform methods and rules effective January 22, 1999, approved by veterinary services of the United States department of agriculture, and all amendments to those publications thereafter adopted pursuant to rules that the director may promulgate.

(24) Cattle and goats not meeting subsection (22) or (23) may be sold through a livestock auction market for slaughter only. Slaughter must occur within 5 days after the sale. The buyer of livestock sold for slaughter shall provide verification that the slaughter occurred within 5 days after sale upon request of the director. Failure of a buyer of livestock sold for slaughter to comply with this subsection subjects that buyer to the penalties and sanctions of this act.

(25) Privately owned cervids moving intrastate shall meet requirements under section 30b.

(26) Bovine tuberculosis testing required under this section shall be an official test. Accredited veterinarians under contract and approved under this subsection may be paid by the department for testing services. Approved veterinarians paid by the department or the United States department of agriculture for bovine tuberculosis testing required by this section must attend an initial bovine tuberculosis educational seminar approved by the director.

(27) Bovine tuberculosis testing shall be conducted by the department, United States department of agriculture, or accredited veterinarians.

(28) Individual livestock that have been injected and are undergoing bovine tuberculosis testing shall not be removed from the premises where the test is administered until the test is read except as permitted by the director.

(29) With advice and consultation from the livestock industry and veterinary profession, the director shall pay to a producer for assistance approved by the Michigan commission of agriculture for whole herd bovine tuberculosis testing required in subsections (14), (16), (18), and (20).

(30) The director shall pay to an operator or owner of a livestock auction market on a 50/50 cost share basis for chutes, gates, and remodeling to expedite identification of livestock for bovine tuberculosis surveillance and eradication.

The director shall recommend to the governor the procedures the director considers necessary to eliminate the threat. (5) A terminal operation is constructed and operated to deter cattle, privately owned cervids, and goats in the terminal operation from making contact with animals other than those in the terminal operation.

(6) If a vehicle transporting cattle, privately owned cervids, and goats from a terminal operation completes the load at additional farms, all of which are en route to a slaughter facility, all cattle, privately owned cervids, and goats must remain on the vehicle and no animals are allowed to unload.

(7) A terminal operation may accept individual livestock that have not been tested for bovine tuberculosis provided that the herd of origin has been tested according to requirements of this act or when other requirements as determined by the director have been met.

of claim against state; applicability of right to indemnity; cleaning and disinfecting premises; repopulation of premises; cooperating and coordinating with secretary of agriculture; reports.

Sec. 14. (1) If the director determines that the control or eradication of a disease or condition of livestock warrants entry onto property where livestock or domestic animals are located, the director shall order the entry onto property where livestock or domestic animals are located and authorize seizure, slaughter, destruction, or other disposition of individual livestock or domestic animals or the entire herd, flock, or school. If the director has signed an order for the slaughter, destruction, or other disposition of livestock or domestic animals, the director shall notify the attorney general and the house and senate appropriations committees and the department of management and budget on the issue of indemnity under this section. The director may approve facilities and procedures for the orderly disposal of animals, animal products, and animal feeds for the purpose of controlling or preventing the spread of an infectious, contagious, or toxicological disease. The director may select a site or method for the disposal with the advice of the director of the department of environmental quality.

(2) The director may, under rules promulgated by the department, allow indemnification for the slaughter, destruction, or other disposition of livestock or domestic animals due to livestock diseases or toxicological contamination. If the director has signed an order for the slaughter, destruction, or other disposition of livestock or domestic animals, the owner may apply for indemnification. The director shall appraise and inventory the condemned livestock or domestic animals. The appraisals and inventories shall be on forms approved by the director. The director shall use agricultural pricing information from commercial livestock or domestic animal auction markets and other livestock or domestic animal market information as determined by the director to determine the value of condemned livestock or domestic animals.

(3) Except as otherwise provided in subsection (5), indemnification for individual livestock or domestic animals within a herd, flock, or school shall be based upon 100% of the fair market value of that type of livestock or domestic animal on the date of the appraisal and marketable for the purpose for which the livestock or domestic animal was intended, not to exceed \$4,000.00 for each livestock or domestic animal. The appraisal determination shall not delay the slaughter, destruction, or disposition of the livestock or domestic animals. The indemnification amount under this subsection shall include a deduction for any compensation received, or to be received, from any other source including, but not limited to, indemnification by the United States department of agriculture, insurance, salvage value, or any monetary value obtained to encourage disposal of infected or exposed livestock or domestic animals in accordance with a disease control or eradication program. The owner shall furnish to the department all records indicating other sources of indemnity. An affidavit signed by the owner attesting to the amount of compensation for the livestock received or to be received from any other source shall accompany the appraisal certificate before indemnification under this section.

(4) Except as otherwise provided in subsection (5), indemnification for entire herd, flock, or school depopulations of livestock or domestic animals shall be based upon 100% of the fair market value of that type of animal on the date of the appraisal and marketable for the purpose for which the livestock or domestic animal was intended, not to exceed an average of \$4,000.00 per animal in the flock, herd, or school. The appraisal determination shall not delay depopulation. The indemnification amount under this section shall include a deduction for any compensation received, or to be received, from any other source including, but not limited to, indemnification by the United States department of agriculture, insurance, salvage value, or any monetary value obtained to encourage disposal of infected or exposed livestock or domestic animals in accordance with a disease control or eradication program. The owner shall furnish to the department all records indicating other sources of indemnity. An affidavit signed by the owner attesting to the amount of compensation for the livestock or domestic animals received, or to be received, from any other source shall accompany the appraisal certificate prior to indemnification under this section.

(5) The department may provide for indemnity pursuant to this section not to exceed \$100,000.00 per order, from any line item in the annual budget for the department in the applicable fiscal year. Any agreement greater than \$100,000.00 entered into between the department and an owner of livestock shall contain a provision indicating that, notwithstanding the terms of the agreement, indemnification shall be subject to specific appropriations by the legislature and not be paid from department funds.

owner's animals.

(7) The right to indemnity from the state for animals condemned and ordered slaughtered, destroyed, or otherwise disposed of by the director applies only to native livestock and native domestic animals. Indemnification shall not apply to livestock or domestic animals determined by the department to be imported without meeting import requirements such as official interstate health certificate or official interstate certificate of veterinary inspection, required testing, required vaccination, or for livestock or domestic animals determined by the department to have been illegally moved within this state. An owner is not entitled to indemnity from the state for an animal that comes into the possession of the owner with the owner's knowledge that the animal is diseased or is suspected of having been exposed to an infectious, contagious, or toxicological disease. In addition, the director shall not indemnify an owner for animals that have been exposed to an animal that comes in to the possession of the owner with the owner's knowledge that the animal is diseased or is suspected of having been exposed to an infectious, contagious, or toxicological disease.

(8) A premises that has been depopulated shall be cleaned and disinfected as prescribed by the director.

(9) Repopulation of the premises, except as approved by the director, shall not confer eligibility for future indemnity under this section.

(10) The department may cooperate and coordinate with the secretary of the United States department of agriculture or the secretary's authorized representative or other governmental departments or agencies regarding indemnification under this section.

(11) Not less than annually, within 60 days after the close of the fiscal year, the director shall make a written report to the standing committees of the house of representatives and senate having jurisdiction on agricultural and farming issues. The report will include the following:

Sec. 4. (1) A cervidae livestock operation is an agricultural enterprise and is considered to be part of the farming and agricultural industry of this state. The director of the department of agriculture shall assure that cervidae livestock operations are afforded all rights, privileges, opportunities, and responsibilities of other agricultural enterprises.

Sec. 5. (1) A person shall not possess cervidae or engage in a cervidae livestock operation unless he or she obtains from the department a cervidae livestock facility registration or unless otherwise exempt by rule or law. If the activity in which the cervidae livestock facility is engaged is required to be regulated under any other act, registration under this act does not exempt the person or cervidae livestock facility from requirements imposed under any local, state, or federal regulation. Zoos accredited under the American zoological association or other accreditations or standards determined appropriate by and acceptable to the department are exempt from this act.

(2) A person registered under this act shall keep and maintain records of production, purchases, or imports in order to establish proof of ownership and shall keep any other records required under standards incorporated by reference under section 6. A person transporting cervidae species shall produce documentation that contains the origin of shipment, registration or permit copies or documentation, documentation demonstrating shipping destination, and any other proof that may be required under the animal industry act, 1988 PA 466, MCL 287.701 to 287.745, upon demand of the director or a law enforcement officer.

(3) Until July 1, 2008, a cervidae livestock facility registered prior to the effective date of the amendatory act that added this subsection must comply with the facility standards contained in "Operational Standards for Registered Privately Owned Cervid Facilities", published by the Michigan department of agriculture, (May 2000). A cervidae livestock facility in existence on or before the effective date of the amendatory act that added this subsection shall be in compliance with the facility standards by July 1, 2008, which are contained in "Operational Standards for Registered Privately Owned Cervidae Facilities" published by the Michigan department of natural resources, (revised December 2005), adopted by the Michigan commission of agriculture on January 9, 2006, and adopted by the natural resources commission on January 12, 2006, and are incorporated by reference.

287.956 Application; fee; standards; business plan; forwarding copies of application; notice to local governmental units; issuance; renewal; determination of completed application; denial; review; "completed application" defined.

Sec. 6. (1) The initial application to construct a cervidae livestock facility shall be accompanied by the application fee described in section 8. The department shall approve, deny, or propose a modification to the completed application within 60 days. The department shall utilize the standards contained in "Operational Standards for Registered Privately Owned Cervidae Facilities", published by the Michigan department of natural resources, (revised December 2005), adopted by the Michigan commission of agriculture on January 9, 2006, and adopted by the natural resources commission on January 12, 2006, and incorporated by reference, to evaluate the issuance, construction, maintenance, administration, and renewal of a registration issued under this act. The department after consultation with the department of agriculture and with concurrence of the commissions of natural resources and agriculture may, by amendment of this act, amend or update the standards adopted in this subsection. Before issuing any registration under this act, the director shall verify, through written confirmation, both of the following:

(a) The department has approved the method used to flush any free-ranging cervidae species from the facility, if applicable, and all free-ranging cervidae species have actually been flushed.

(b) The department has determined that the size and location of the facility will not place unreasonable stress on wildlife habitat or migration corridors.

(2) As part of the initial application or the application to modify a cervidae livestock facility, the applicant for registration shall submit a business plan complying with the standards established under this section that includes all of the following:

(a) The complete address of the proposed cervidae livestock facility and the size of, the location of, and a legal description of the lands on which the cervidae livestock operation will be conducted.

(b) The number of each cervidae species included in the proposed facility.

(c) Biosecurity measures to be utilized, including, but not limited to, methods of fencing and appropriate animal identification.

(d) The proposed method of flushing wild cervidae species from the enclosure, if applicable.

(e) A record-keeping system in compliance with this act and the operational standards incorporated by reference in subsection (1).

(f) The method of verification that all free-ranging cervidae species have been removed.

(g) The current zoning of the property proposed as a cervidae livestock facility and whether the local unit or units of government within which the cervidae livestock facility will be located has an ordinance regarding fences.

(h) A disease herd plan in compliance with the operational standards incorporated by reference in subsection (1) to be approved by the state veterinarian under the animal industry act, 1988 PA 466, MCL 287.701 to 287.745.

(i) Any other information considered necessary by the department.

(3) Upon receipt of an application, the director shall forward 1 copy each to the departments of agriculture and environmental quality. Upon receipt of an application, the department shall send a written notice to the local unit or units of government within which the proposed cervidae livestock facility will be located unless the department determines, from information provided in the application, that the local unit of government has a zoning ordinance under which the land is zoned agricultural. The local unit or units of government may respond, within 30 days of receipt of the written notice, indicating whether the applicant's cervidae livestock facility would be in violation of any ordinance.

(4) The department shall not issue an initial cervidae livestock facility registration or modification unless the application demonstrates all of the following:

(a) The cervidae livestock facility has been inspected by the director and he or she has determined that the cervidae livestock facility meets the standards and requirements prescribed by and adopted under this act, complies with the business plan submitted to the department, and determines that there are barriers in place to prevent the escape of cervidae species and prevent the entry of wild cervidae species. A renewal or initial applicant must provide a perimeter fence in compliance with the operational standards incorporated by reference under subsection (1).

(b) The method for individual animal identification complies with the standards incorporated by reference under this section.

(c) The applicant has all necessary permits that are required under part 31 regarding water resources protection, part 301 regarding inland lakes and streams, and part 303 regarding wetland protection of the natural resources and environmental protection act, 1994 PA 451, MCL 324.3101 to 324.3133, 324.30101 to 324.30113, and 324.30301 to 324.30323, and any other permits or authorizations that may be required by law.

(5) Beginning the effective date of the amendatory act that added this subsection, the department shall issue an initial registration or modification registration allowing an expansion of an existing facility not later than 120 days after the applicant files a completed application. Renewal applications shall be issued not later

than 60 days after the applicant files a completed application. Receipt of the application is considered the date the application is received by the department. If the application is considered incomplete by the department, the department shall notify the applicant in writing, or make the information electronically available, within 30 days after receipt of the incomplete application, describing the deficiency and requesting the additional information. The determination of the completeness of an application does not operate as an approval of the application for the registration and does not confer eligibility upon an applicant determined otherwise ineligible for issuance of a registration. The 120-day period is tolled under any of the following circumstances:

(a) Notice sent by the department of a deficiency in the application until the date all of the requested information is received by the department.

(b) The time period during which required actions are completed that include, but are not limited to, completion of construction or renovation of the facility; mandated reinspections if by the department; other inspections if required by any state, local, or federal agency; approval by the legislative body of a local unit of government; or other actions mandated by this act or as otherwise mandated by law or local ordinance.

(6) If the department fails to issue or deny a registration within the time required by this subsection, the department shall return the registration fee and shall reduce the registration fee for the applicant's next renewal application, if any, by 15%. The failure to issue a registration within the time required under this section does not allow the department to otherwise delay the processing of the application, and that application, upon completion, shall be placed in sequence with other completed applications received at that same time. The department shall not discriminate against an applicant in the processing of the application based upon the fact that the registration fee was refunded or discounted under this subsection.

(7) Upon receipt of a denial under this section and without filing a second application, the applicant may request in writing and, if requested, the department shall provide an informal review of the application. The review shall include the applicant, the department, and the departments of agriculture and environmental quality, if applicable. After the informal review, if the director determines that the proposed cervidae livestock facility or cervidae livestock operation complies with the requirements of this act, the director shall issue a registration within 30 days after the applicant notifies the department of completion of the facility. After the informal review, if the director determines that the proposed cervidae livestock facility or cervidae livestock operation does not comply with the requirements of this act, the director shall affirm the denial of the application in writing and specify the deficiencies needed to be addressed or corrected in order for a registration to be issued. The applicant may waive the informal review of the application.

(8) As used in this subsection, "completed application" means an application complete on its face and submitted with any applicable registration fees as well as any other information, records, approval, security, or similar item required by law or rule from a local unit of government, a federal agency, or a private entity but not from another department or agency of the state of Michigan.

History: 2000, Act 190, Eff. June 1, 2001;—Am. 2006, Act 561, Imd. Eff. Dec. 29, 2006.

Compiler's note: For transfer of certain powers and duties under the cervidae act from the department of agriculture, or its director, to the department of natural resources by type II transfer, see E.R.O. No. 2004-2, compiled at MCL 287.981.

287.957 Completion of facility construction; notice; inspection; issuance of registration; determination of noncompliance; notice of registration denial; request for second inspection; review upon second denial; hearing; return of registration fee.

Sec. 7. (1) At the time the construction of the cervidae livestock facility is completed, the applicant shall notify the department in writing. That written notice shall certify that, to the best of the applicant's knowledge, the cervidae livestock facility has been constructed in compliance with the requirements of this act and in compliance with the standards for cervidae livestock facilities. Within 30 days after notification of the completion of the cervidae livestock facility, the director shall inspect the cervidae livestock facility. If the director determines that the proposed cervidae livestock facility conforms to standards prescribed by and adopted under this act, the director shall issue a registration within 30 days after completion of an inspection finding that the cervidae livestock facility conforms to this act. The time periods described in this subsection may be extended by the department only if the department is unable to verify the removal of wild cervidae species, for an act of God, or in accordance with section 6(5)(a) or (b).

(2) If the director determines that a proposed cervidae livestock facility does not comply with the requirements of this act, the director shall deny the application for registration. The department shall notify in writing an applicant of the reasons for a registration denial within 60 days after receipt of the completed application. The notice shall specify in writing the deficiencies to be corrected in order for a registration to be issued.

(3) Without filing a second application under this section, an applicant may request a second inspection

after the specified deficiencies have been corrected. The department is not required to make more than 2 preregistration inspections of the same proposed cervidae livestock facility per application.

(4) Upon receipt of a second denial under this section and without filing a second application, the applicant may request in writing and, if requested, the department shall provide an informal review of the application. The review shall include the applicant, the department, and the departments of agriculture and environmental quality, if applicable. After the informal review, if the director determines that the proposed cervidae livestock facility complies with the requirements of this act, the director shall issue a registration within 30 days after the informal review. After the informal review, if the director determines that the proposed facility does not comply with the requirements of this act, the director shall affirm the denial of the application in writing and specify the deficiencies needed to be addressed or corrected in order for a registration to be issued. The applicant may waive the informal review of the application.

(5) The applicant may request a hearing pursuant to the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, on a denial of a registration or upon any limitations placed upon the issuance of a registration.

(6) The department shall not return a registration fee or a portion of a registration fee to an applicant if a registration is denied.

EXECUTIVE REORGANIZATION ORDER
E.R.O. No. 2004-2

287.981 Transfer of powers and duties of the department of agriculture under the Cervidae act to the department of natural resources by type II transfer.

WHEREAS, Section 1 of Article V of the Michigan Constitution of 1963 vests the executive power of the State of Michigan in the Governor;

WHEREAS, Section 2 of Article V of the Michigan Constitution of 1963 empowers the Governor to make changes in the organization of the Executive Branch or in the assignment of functions among its units that the Governor considers necessary for efficient administration;

WHEREAS, facilities and operations for captive cervidae including deer, elk, moose, and reindeer, can have serious impacts on the state's wildlife population and the agricultural industry;

WHEREAS, unlike domestic livestock species, when deer and elk escape from privately-owned cervidae livestock facilities and operations, they are indistinguishable from free-ranging deer and elk, and also pose a potential risk to native animals, such as the transmission of parasites and disease;

WHEREAS, deer and other cervidae are migratory animals often moving substantial distances seasonally, magnifying potential impacts on Michigan's wildlife population;

WHEREAS, Chronic Wasting Disease is an incurable neurological disease of deer and elk that can be spread directly from animal to animal, or indirectly from soil or surface to animal;

WHEREAS, Chronic Wasting Disease was once considered to be a disease limited to small endemic areas of Western United States, but has recently been discovered in more than 15 states and in Canada.

WHEREAS, while the disease has the potential to devastate Michigan's deer and elk population, with state action, and the cooperation of private industry, Michigan can work to prevent Chronic Wasting Disease and other potential problems to maintain a healthy and safe future for Michigan wildlife;

WHEREAS, it is imperative that Michigan remain vigilant and act decisively in adopting measures to protect native deer and elk from Chronic Wasting Disease and reduce vulnerabilities to the spread of the disease;

WHEREAS, in light of the potential impact on Michigan's wildlife population, the Governor's Chronic Wasting Disease Task Force, chaired by Dr. Howard Tanner, has recommended that the licensing, application, registration, and inspection functions for privately-owned cervidae livestock facilities and operations be transferred to the Department of Natural Resources;

WHEREAS, the Governor's Chronic Wasting Disease Task Force has also recommended a complete audit of Michigan's privately-owned cervidae livestock facilities and operations, which under current budgetary conditions can most effectively be performed by the Department of Natural Resources;

WHEREAS, it is necessary in the interests of efficient administration and effectiveness of government to effect changes in the organization of the executive branch of state government;

NOW THEREFORE, I, Jennifer M. Granholm, Governor of the State of Michigan, by virtue of the power and authority vested in me by the Michigan Constitution of 1963 and Michigan law, order the following:

This act does not limit the common law liability of the owner or person temporarily in possession of a wolf-dog cross for the death or injury of a human or for property damage caused by the wolf-dog cross.

(2) If a wolf-dog cross bites an individual without provocation while the individual is on public property or lawfully on private property, including the property of the owner or person temporarily in possession of the wolf-dog cross, the owner or person temporarily in possession of the wolf-dog cross is liable for any damages suffered by the individual bitten, regardless of the former viciousness of the wolf-dog cross or the owner's or person temporarily in possession's knowledge of such viciousness. For the purposes of this subsection, an individual is lawfully on the private property of the owner or person temporarily in possession of the wolf-dog cross if the individual is on that property in the performance of any duty imposed upon him or her by the laws of this state or by the laws or postal regulations of the United States, or if the individual is on that property as an invitee or licensee of the person lawfully in possession of the property, unless the individual has gained lawful entry upon the property for the purpose of an unlawful or criminal act.

(3) If a wolf-dog cross escapes or is released, intentionally or unintentionally, the owner or person temporarily in possession of the wolf-dog cross shall immediately contact a law enforcement officer of the local unit where the escape or release occurred to report the loss, escape, or release. The owner or person temporarily in possession of the wolf-dog cross is liable for all expenses associated with efforts to recapture the wolf-dog cross that is released or escapes.

(4) The owner or person temporarily in possession of the wolf-dog cross may bring against a person who is responsible in whole or part for the escape or release of the wolf-dog cross a civil action for damages, including, but not limited to, damages and expenses under subsection (1), (2), or (3).
